

Did I hit the sentiment on the head? Say what you are thinking?!

## Let's say it all together now... "F U Covid-19!!!"

Now that we got that out of our system (well, a little bit for now), let's chat about what we are going to do about your plans to get married in 2020.

Let me reassure you, **I AM HERE FOR YOU** and have no plans to close down over the next 6 months or any time after that.

I have already begun working with couples who have been forced to postpone their wedding due to travel bans and excess numbers with venue restrictions, some already have new dates to work with. However...

### **IF YOU STILL WANT TO GET HITCHED AMIDST THE CHAOS - I AM ALL IN!!!**

Obviously we will work within the safe guidelines as asked by our leaders. But as far as I am concerned, we can do this together! Even if your day looks different to what we had originally planned - we can still make it AMAZING!!

If you know me, you already know that I love to think outside the box... so here are some other options to think about:

### **Keep calm and carry on - let's do this wedding just as planned**

*Bearing in mind the restrictions in place to keep your guests, vendors and yourselves safe.*

### **Let's have an intimate ceremony & host a fully sick party later!**

*Talk to your venues about this possibility... it could be a great solution that will not only get you married now but also keep the industry going through this rough patch.*

### **Plan an adventure elopement and incredible reveal party**

*Check out my new venture @Elopebrisbane It could be an incredible experience for the two of you - Let's turn lemons into lemonade and make the most of a worldwide emergency. **What an epic love story to tell your children... we eloped during a pandemic!***

### **Propose a micro wedding with Pop Up Weddings Bayside**

*The amazing women in this team specialise in micro weddings (these are small scaled weddings), they have all the bling without the buck and are safe in terms of numbers and locations - choosing indoor or outdoor venues, check out their website or FB page.*

### **Add videography, Skype or FB live and stream to your favourites**

*So some people cannot make it - don't leave them with FOMO! Go digital, or talk to me about video options available to you - it's that 'maybe' item that is now essential!*
